

ICDExpert for Post-acute Care

ICDExpert for Post-acute Care, with our hallmark features and content, is designed specifically to address the challenges faced by home health, hospice, skilled nursing and rehabilitation services when using ICD-10-CM coding and reimbursement systems. This valuable online solution delivers every description, guideline and instruction in Optum360 expert code books, but in a more convenient format that is just as affordable. Monthly updates ensure code descriptions and clinical information are always current, helping you comply with HIPAA. Use as to complement or replace your coding book.

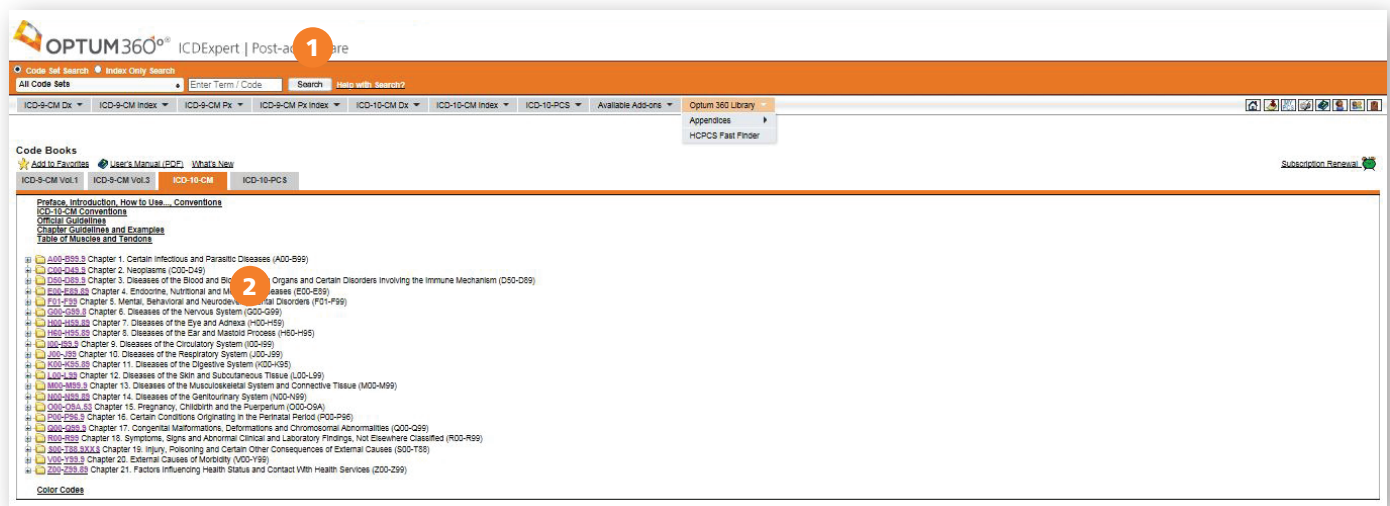

Key features and benefits

- **Optum360 Edge — Optum360 Library.** Supplemental content has been added that addresses home health and hospice reimbursement and coverage issues, including:
 - Overview of home health prospective payment system
 - Qualifications for Medicare coverage of home health
 - Oasis diagnosis guidance
 - Case-mix variables and scores
 - Clinical dimension case-mix groups
 - NRS Case-mix adjustment variables and scores
 - Diagnosis categories for NRS case-mix adjustments
 - Valid diagnosis/etiology pairings
 - Hospice criteria for Medicare coverage of non-cancer hospice care
 - Hospice guidance and quality reporting guidance
 - Optum360 FastFinder™ for home health

- **Placeholder X alert.** This symbol, **Xtension Check**  (designed and used exclusively by Optum360®) alerts the coder to a new ICD-10-CM convention — the use of a “placeholder X.”
- **Detailed clinical and lay descriptions.** Access comprehensive clinical and lay information at the chapter, code block, category, subcategory and code level. Includes proprietary Focus Points.
- **Color-coding and symbols specific to the home health PPS edits.** Quickly identify coding and reimbursement issues specific to home health for improved coding accuracy and work efficiency.
- **Color-coding for hospice non-cancer diagnosis codes.** Know at a glance which diagnosis codes qualify a non-cancer patient for hospice care.
- **Additional character-required symbols.** Know when an additional character is required for code specificity and validity to avoid invalid code submissions (provided in index and tabular section).
- **Highlighted coding instructional and informational notes.** Recognize important code usage guidance for specific sections more easily with highlighted notes.
- **“Unspecified” and “Other” code alerts.** Find official coding guidance that suggests home health agencies avoid using diagnoses that are unspecified or vague.
- **Anatomical illustrations.** The focus is on featuring anatomy and terminology included in the ICD-10-CM classification systems, in order to help you better understand diagnosis and anatomy so you can select the best possible codes.
- **Official index.** Navigate through the official index to the tabular section and external causes using our exclusive shade guides to easily identify subterm levels under main terms.
- **Hallmark design and features.** Ease into the new classification system using intuitive visual alerts to highlight code groupings as well as the distinctions between code choices. Plus, added features make finding specific sections easier.
- **Notations for diagnoses that group to clinical dimension.** Expedite identification of diagnoses that group a patient to expanded clinical dimensions case mix groups to ensure appropriate reimbursement.
- **Non-Routine Supply (NRS) diagnosis alert.** Every condition is identified that may qualify for receiving non-routine supply reimbursement adjustment.
- **Manifestation code alert.** Properly use codes that represent manifestations of underlying disease by knowing when two codes are required and by knowing alerts to sequencing rules.
- **Table of drugs and chemicals and neoplasm.** Updated tables within ICD-10-CM with every possible code for each event.
- **HIPAA compliance.** Support compliance with HIPAA transaction and code set requirements to avoid delayed or denied claims and costly fines for violations.

ICDExpert for Post-acute Care

1. CodeLogic™ search engine searches CPT®, HCPCS, ICD-10 and ICD-9 diagnosis codes simultaneously using lay terms, acronyms and abbreviations.
2. ICDExpert for Post-acute Care provides ICD-10-CM code lookup efficiently, all on one screen.
